

Infisolve is founded on the idea to partner with life-science and finance industry to ensure technology powerfully supports business processes. Our team has extensive experience with open-source technologies to provide our clients with the optimum tools, platforms and systems. We will draw on our collective experience to provide vendor agnostic ecosystem, that is robust, scalable and provide hosting flexibility. The goal of Infisolve is to provide all this in the most cost-effective way.

OUR VISION

To create strong, yet agile technology backbone for business processes enablement of a pharmaceutical organizations, which will support the current and future needs of organic and inorganic growth plans.

MISSION

- Sensitise the organization on need for technology enablement of various business processes in the existing value chain.
- Provide and overarching IT landscape blueprint to cover their current and future needs.
- Analyse the current technology adoption and provide a roadmap for digital transformation.
- Handhold the stakeholders at every stage of the transformation process to make the organization more customer centric, more agile and efficient thereby boosting the ROI.

We-Call

OUR VIRTUAL DETAILING MOBILE APPLICATION

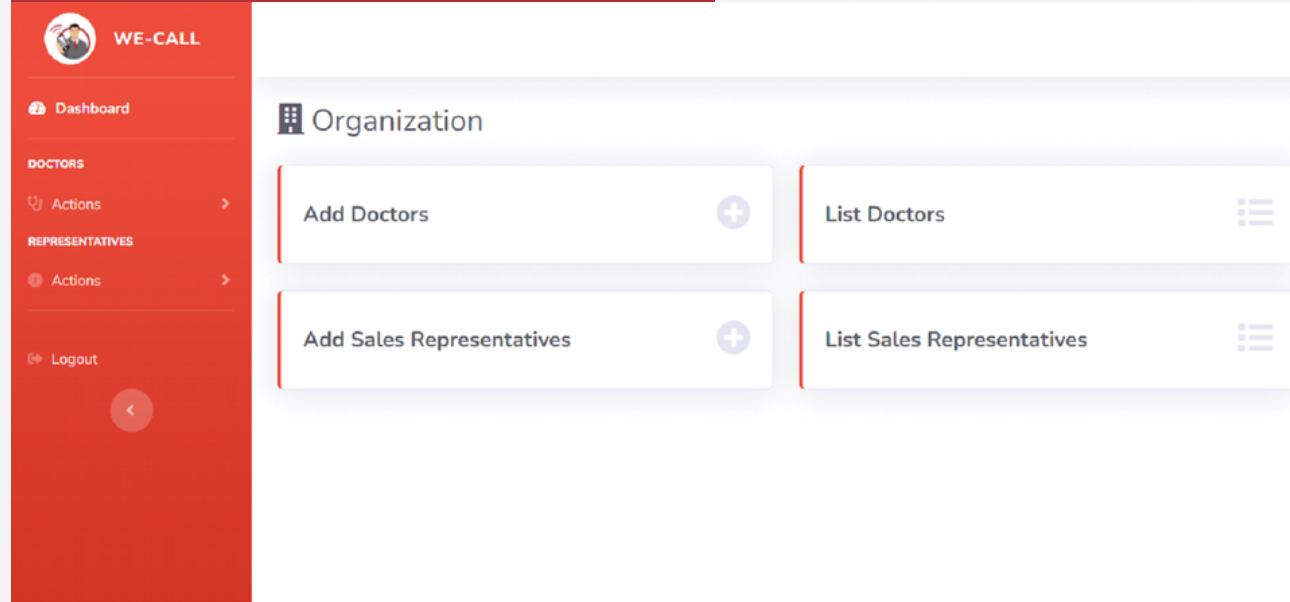

Infisolve has developed a dedicated Mobile Application for ensuring the seamless video interaction between Your Medical Sales Representative and his Physician customer. This is a once-to-be-downloaded app for both sales rep and Physician.

Every Pharma organization needs to have an additional channel for communication for new product launches, old product reminders, new customer acquisitions or contact continuity in vacant territories. WeCall is the solution that is cloud hosted, secured and offers flexibility for ramping up. No CAPEX, No OPEX. No upfront payments.

MINIMAL SETUP

AS SIMPLE AS ONE TWO
THREE

Pharma Company admin uploads Physician and M.R data through web interface

FEATURES

Physician schedules call per his / her convenience.

Notifications to both. Call list and call history visible to both.

Both join virtual room and complete brand detailing.

e-Detailing

Virtual Detailing for medical representatives to Physicians
